

## Quick Start Guide – How to Connect the USB-C from KIT to the Laptop

1. **Power** on the **Laptop**. The **FS Launcher App** should open automatically.
2. **Power** on the **Projector** (*allow 15-20 seconds for the projector to come on*).
3. **Power** on the **KIT**.
4. Plug the **USB-C** cable from the side of the laptop into the power port on the side of the KIT.
5. There will be a **USB** symbol that displays on the KIT letting you know they are connected. 
6. On the laptop, select the **FS Golf Kit** icon.
7. Watch the KIT at this time as it will light up **Green 1x** and the display screen will change to the **Full Swing Kit Game Mode**. Once connected there will be a **Green Checkmark** in the top right corner next to the USB symbol.
8. Place the KIT at the end of the **Turf Extension** if not already.
9. **Begin Playing!**

**NOTE:** **Wi-Fi** to the laptop is crucial for these two technologies to connect; ensure you have good signal when operating the **Full Swing KIT Studio**.
